Welcome in our **Dino** Kinds world

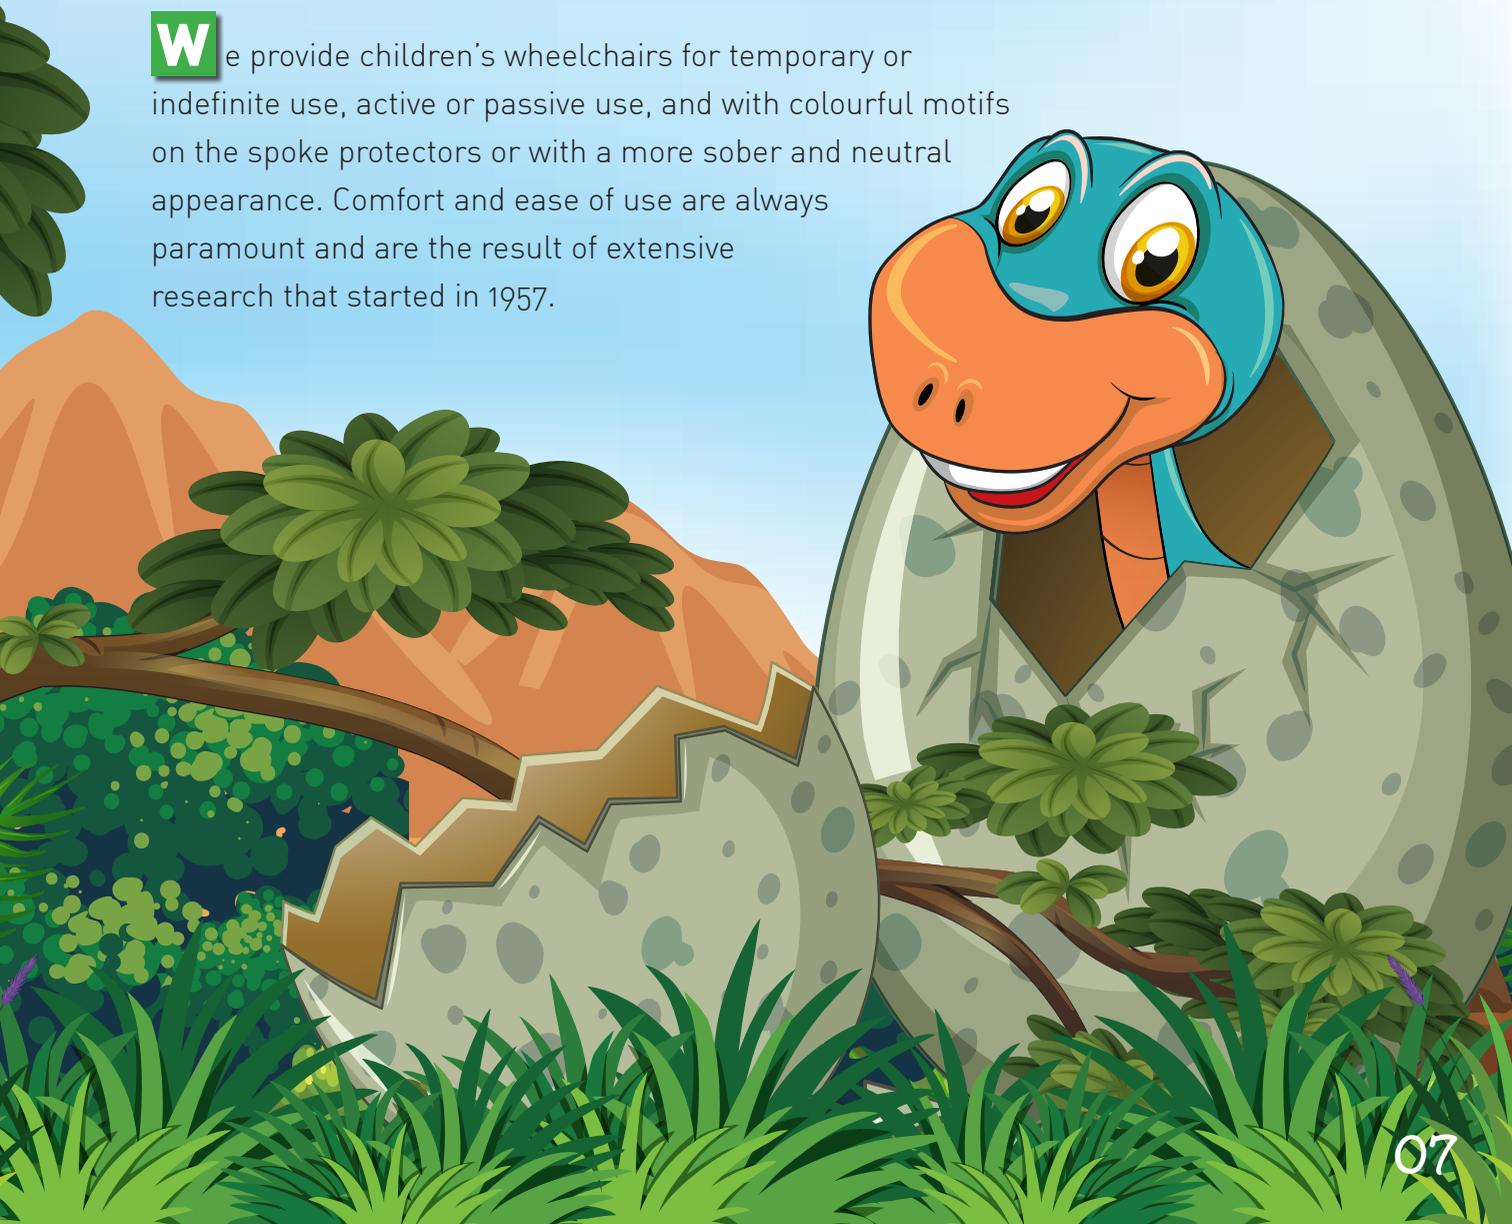

In everyday mobility, there is a need for quality manual wheelchairs with a good balance between stability, ease of use and comfort. **VERMEIREN** offers children's wheelchairs that allow children to be more independent, experience a better sense of social interaction and an increased quality of life.

We provide children's wheelchairs for temporary or indefinite use, active or passive use, and with colourful motifs on the spoke protectors or with a more sober and neutral appearance. Comfort and ease of use are always paramount and are the result of extensive research that started in 1957.

■ The Trigo Kids is a trendy, active and lightweight wheelchair, specially designed for active and playful children who like to be mobile. Equipped with sporty and modern rear wheels with black rims (angle adjustable and customizable in height), accessible brakes, and small, height-adjustable front wheels.

VERMEIREN offers two versions; Trigo S and Trigo T. Trigo T has removable footrests, while the footrests of Trigo S are integrated into the frame. The wheelchair can adjust the centre of gravity for everyone. Depending on the adjustment, the largest proportion of the weight of the user and the seat can be shifted forward or backwards.

■ The aluminium-made Eclips X4 Kids offers you an ultra-light wheelchair, combined with robustness and user-friendliness. Equipped with clothing protectors on each side and a firm nylon upholstery resulting in a contemporary look.

Without the wheels and footrests, the Eclips X4 Kids weighs no more than 9 kg, which translates in easy transport.

JAZZ S50 KIDS

Colourful, functional and fully adjustable with a whole range of options and adjustments. The Inovys Junior has all the features and possibilities of the Inovys II for adults but tailored to the size of our younger people.

Over the years, the Inovys models have proven their worth and are still in high demand for people who need a comfortable and practical tilt-in-space solution.

With its powered wheelchairs, **VERMEIREN** wants to help your child actively participate in society. Each wheelchair is fully customisable with a range of options according to the child's needs and wishes, making sure they can explore the world with confidence!

Power wheelchairs for children are also following current trends so that USB connections and interaction with smartphones or tablets are no longer an exception. Finger control, chin control and button control are just a few examples of the extensive range that **VERMEIREN** offers on its power wheelchairs.

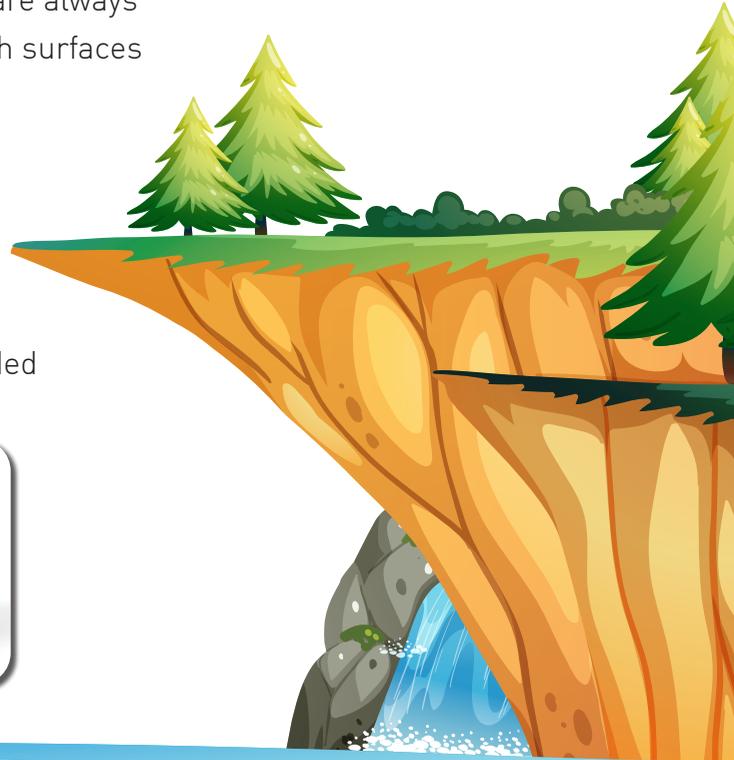

The Forest Kids is a powered wheelchair, suitable for both indoor and outdoor use and ideal in overcoming obstacles. The 4 wheels are always in contact with the ground even on rough surfaces up to 120 mm.

- Height-adjustable pushing handles
- Armrests adjustable in height
- Leg rests adjustable in depth
- LED lights in front and back
- Stability axle keeping 4 wheels grounded

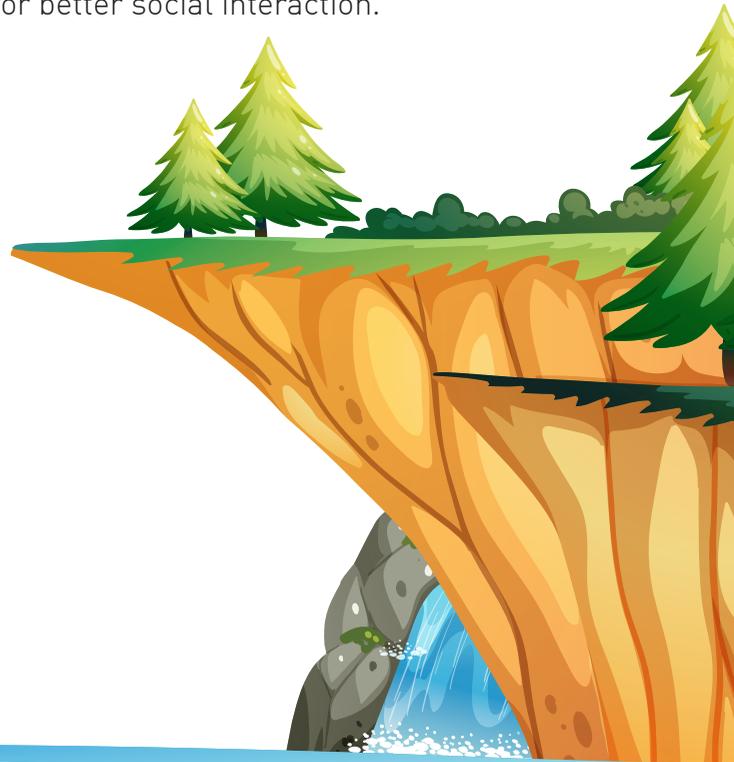

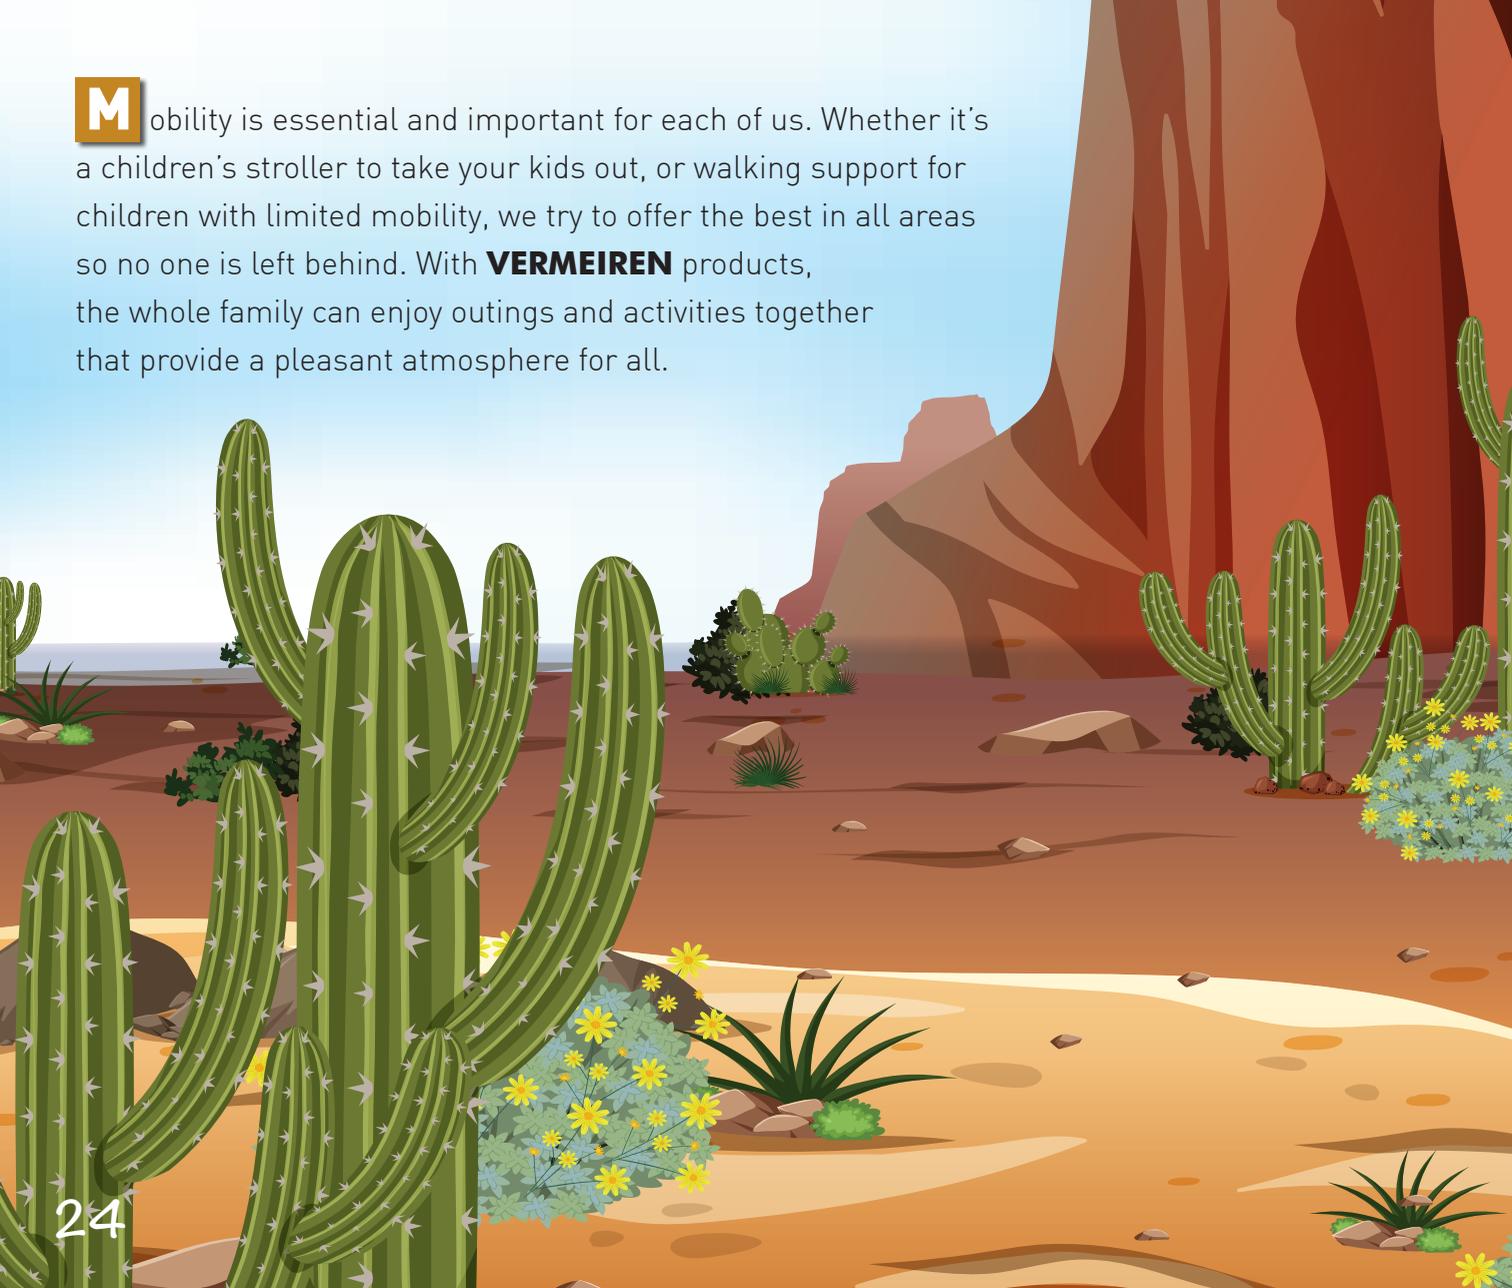

The Springer is a fine example on how technology can facilitate social integration. Springer is easy to get around, and the lift function creates a greater accessibility for better social interaction.

- 4 shock absorbers
- Ground clearance up to 80mm
- Profiled wheels for a better grip
- Anti-tipping wheels at the back

Mobility is essential and important for each of us. Whether it's a children's stroller to take your kids out, or walking support for children with limited mobility, we try to offer the best in all areas so no one is left behind. With **VERMEIREN** products, the whole family can enjoy outings and activities together that provide a pleasant atmosphere for all.

Products created by **VERMEIREN** are frequently made of light but sturdy aluminium, which ensures that our products are easy to carry during trips. Extra tools for adjustments are usually not necessary so that you can adjust things at any time without having to carry around a tool case.

GEMINI 2

Want to know more?

■ The Gemini 2 is a stroller made of quality aluminium. Thanks to its design, it offers various adjustments and options. The seat can be positioned in two ways so that your child is always comfortable.

In addition, the Gemini 2 is light, foldable and easy to disassemble for transportation. And with an optional indoor frame, the Gemini 2 can easily be converted to an indoor chair.

VERMEIREN offers a range of colourful and cheerful tricycles for 3-year-olds to 18-year-olds. Our tricycles can be expanded with a lot of options to increase comfort or to adapt the tricycles to personal needs.

The great advantage of our tricycles is their stability, which makes young cyclists immediately feel safer and more confident while cycling and thus discover a new, mobile freedom.

Our tricycles are constructed 100% in-house, so you can count on excellent quality and years of enjoyment.
